STV Results Explanation

- Depending on how many candidates there are in in your election there may be multiple 'stages' in your count.
- The candidate with the lowest number of votes in each stage is 'excluded'.
- When you're 'excluded' from the election the transferable ballots are then allocated to the remaining candidate(s).
- To be elected in the 1st round a candidate must receive half+1 of the entire voter turnout.
- Please remember, a candidate could have the most votes for multiple 'stages', however, this doesn't necessarily mean you will win in the final stage after votes have been transferred.
